

As Catholic educators, we are called to go beyond the lesson plans...

In conjunction with the Archdiocese of Chicago, Charis Ministries presents

The Catholic School Teachers' Retreat

A strong sense of Catholic identity enables us to foster it in our students. This retreat for teachers in their 20s & 30s takes a closer look at "Jesus as teacher" with the understanding that strengthening a relationship with Christ enables teachers to fulfill their vocation more deeply. The format is designed to develop teachers both professionally and personally.

During this day-long retreat, teachers will have the time and space to reflect on the interdependence of faith and teaching. A team of young adult teachers will share how Catholic identity impacts their vocation. Teachers will take time to rejuvenate their spirit, reflect individually and communally, and renew their commitment to Catholic education.
